Nurturing First-Generation Learners, Preventing School Dropouts.

Education is a powerful tool that breaks the cycle of poverty. At Equitas Gurukul Schools, we provide affordable, holistic, English-medium education to **over 7,500 children** from low-income backgrounds.

We nurture, counsel, and support them so that they continue their education and do not drop out of school.

One such student is **Sundari**, who suffered a devastating loss and almost dropped out of school.

Today, she is on her way to becoming an anesthesiologist and the first-ever graduate of her family!
